2.24. Void Bet – A Bet that cannot be settled as a Winning or a Loss and is voided in accordance with the terms of these Rules. Voiding of Bets may occur in the following cases:

- **(i) Administrative/Technical:** When a Bet is declared **Void** or **Cancelled** in accordance with these Rules (e.g., due to an Abandoned Event, a Non-Runner, or an Error).
- **(ii) Market-Based:** As a natural result of the Market's logic where the Outcome leads to a tie or a "no action" scenario (e.g., **Draw No Bet**, or whole-number **Asian Handicaps** and **Totals**). In such instances, the Refund is a legitimate Outcome of the Bet rather than a cancellation.

2.25. Refund – The return of the original Stake of a Void Bet to the End User's account balance, but technically settled at Odds of **1.00**.

2.26. Dead Heat Rule – A settlement rule applied when two or more competitors share a finishing position relevant to a Bet. In this case, the Stake is divided by the number of tied competitors before applying the Odds.

2.27. Syndicate – A group of End Users acting in concert to bypass individual limits or take advantage of an Error or insider information.

2.29. Error – Any mistake, technical glitch, misprint, or human error (e.g., inverted Home/Away teams, incorrect Odds, or software bugs) that results in Odds, Market parameters, or Bet settlements that differ significantly from the actual Market average or the factual Outcome of the Event.

2.30. Limit – The maximum or minimum values established by the Operator or Sportsbook regarding the amount of a Stake, the maximum Winnings per Bet or per Event, or the maximum Odds permitted for a specific selection or parlay. Limits may

2.31. Regular Time – refers to the scheduled duration of an Event as defined by the relevant governing body, including any stoppage or injury time where applicable, but excluding any form of Overtime, Extra Time, or Penalty Shootouts, unless otherwise explicitly stated.

3.2. In the event of any discrepancy between the English version of these Betting Rules and any other language version, the **English version shall prevail**.

3.3. Once a Bet is accepted and confirmed by the Sportsbook, it cannot be reversed or changed by the End User. The Operator is not responsible for misplaced or duplicated Stakes made by an End User. The Sportsbook platform will not review any requests for alteration of Stakes for the reason of misplaced or duplicated bets.

3.4. All accepted Bets can be reviewed in the “**My Bets**” section of the End User interface to ensure all requested Bets were successfully accepted.

3.5. Any information provided on the Sportsbook, including but not limited to **Live Scoreboards, Broadcasts (Live Streams)**, scores, time, statistical data, or editorial texts, is for informational and entertainment purposes only. The Sportsbook does not warrant the accuracy, completeness or real-time nature of such information. The Operator accepts no liability for any betting decisions based on the data provided on

3.8. The availability of Events and Markets on the Sportsbook may vary by jurisdiction, as the offering of Sportsbook services is subject at all times to applicable laws and regulations.

3.9. The Sportsbook uses reputable and legitimate data sources to determine results. While data sources are not always expressly disclosed, they may be provided to the End User upon reasonable request at the Operator's discretion in the event of a dispute.

3.10. Hierarchy of Rules: In case of any contradiction, the order of precedence shall be:

1. **Market Rules** (Specific to a certain market);
2. **Sport Rules** (Specific to a certain sport);
3. **General Rules** (This Section). In the absence of specific Market or Sport rules, General Rules shall apply.

3.11. Any reference to "**X**" within a Market description in these Rules refers to the specific numeric value defined in the Sportsbook offering at the time the Stake is placed.

4. Stake Placement, Bet Types & Features

4.1. General Conditions

- **4.1.1.** All Stakes placed by an End User and all Bets accepted by the Sportsbook are subject to these Betting Rules and applicable law.
- **4.1.2.** For a Bet to be considered valid, it must be expressly confirmed as accepted by the Sportsbook with a respective statement in the betslip and recorded in the End User's account history.
- **4.1.3.** The Sportsbook reserves the exclusive right, at its sole discretion, to accept or reject any Bet or Stake.

4.2. Basic Bet Types

- **4.2.1. Single (Ordinary)** – a Bet placed on a single Outcome within or of an Event. If the choice of the Outcome in the Bet is correct, the Winning equals the Stake multiplied by the Odds.
- **4.2.2. Combo (Parlay/Accumulator)** – A Bet combining two or more independent Market selections from one or multiple Events. All Market selections must be correct for the Bet to win and settled as winning in accordance with these Rules. If any of the Market selections loses, the entire Combo Bet is lost. Winning is calculated as: $\text{Stake} \times \text{Total Odds}$ (where Total Odds equals the multiplication of all included Odds).
- **4.2.3. System** – A Bet consisting of multiple combinations (Combos) generated from Market selection from different Outcomes. Each combination includes a fixed number of Market selections from the total set chosen by the End User. A System Bet uses the same Stake for each combination. The End User must specify the total number of selections and the number of selections included in each combination.

4.3. Named Systems (Multi-Bets)

To simplify the placement of complex Systems, the following standard combinations are available:

Type	Selections	Breakdown of Bets

Trixie	3	3 Doubles and 1 Treble (4 bets total)
Patent	3	3 Singles, 3 Doubles, and 1 Treble (7 bets total)
Yankee	4	6 Doubles, 4 Trebles, and 1 Fourfold (11 bets total)
Canadian	5	10 Doubles, 10 Trebles, 5 Fourfolds, and 1 Fivefold (26 bets total)
Heinz	6	15 Doubles, 20 Trebles, 15 Fourfolds, 6 Fivefolds, and 1 Sixfold (57 bets total)
Super Heinz	7	21 Doubles, 35 Trebles, 35 Fourfolds, 21 Fivefolds, 7 Sixfolds, and 1 Sevenfold (120 bets total)

Goliath	8	28 Doubles, 56 Trebles, 70 Fourfolds, 56 Fivefolds, 28 Sixfolds, 8 Sevenfolds, and 1 Eightfold (247 bets total)
----------------	---	---

4.4. Payouts and Rounding

4.4.1. If the calculated amount of Winning involves more than two decimal digits, the amount may be rounded to the nearest two decimal places in accordance with standard mathematical rounding rules.

4.5. Cash Out

- **4.5.1.** “Cash Out” is an option offered by the Sportsbook that allows the End User to settle a Bet before the Event is completed on terms offered by the Sportsbook.
- **4.5.2.** The Cash Out offer may be accepted or declined by the End User. By selecting “Cash Out,” the End User agrees to settle the Bet at the offered terms and the Bet is considered settled.
- **4.5.3.** Cash Out may be available for both pre-match and live Bets. The Sportsbook reserves the right to offer, adjust, suspend, or withdraw Cash Out offers at any time and at its sole discretion, without providing a reason.

4.6. Bet Builder

- **4.6.1.** Bet Builder is a Bet combining multiple selections from different Markets within the same Event. To win Bet Builder, every Outcome of selected Markets within the Bet Builder Bet must be predicted correctly.
- **4.6.2.** Bet Builder availability remains at the Sportsbook’s sole discretion. The Sportsbook reserves the right to amend, suspend, or remove the Bet Builder feature at any time.
- **4.6.3.** If any selection within the Bet Builder is settled incorrectly, the provisions relating to Errors under these Betting Rules shall apply.
- **4.6.4.** If any Market selection within a Bet Builder is declared void, that Market selection will be removed from the Bet Builder, and the remaining (non-voided) Market selections will continue to stand.

- **4.6.5.** Bet Builder Bets may be combined within Combo or System Bets, either with other Bet Builder Bets or with standard (non-Bet Builder) Bets.

4.7. Early Payout

Early Payout is a special offer that allows a Bet to be settled as a winner early if predefined settlement conditions (one or several), as listed in the special tag attached to the respective Event and Market, are met, irrespective of the actual final outcome of the Event.

- **a)** Markets eligible for Early Payout will be identified accordingly. The applicable Early Payout conditions will be made available within the Sportsbook interface via special Early Payout tag (including on the Event page or “My Bets” section).
- **b)** The availability of the Early Payout tag, including applicable conditions and eligible Events or Markets, is determined solely at the discretion of the Sportsbook and may vary.
- **c)** Early Payout may apply to Single Bets and multiple Bets (including Combo, System, and Bet Builder Bets), whether consisting entirely of Early Payout selections or a combination of Early Payout and non-Early Payout selections. Early Payout may also be available in conjunction with certain bonus types (e.g., ComboBoost, Bet Refund, Free Money, No Risk).
- **d)** For Single Bets, once the Early Payout condition is met, the Bet is settled as a winning Bet regardless of the final outcome of the Event. No additional payout will be made if the original selection also wins.
- **e)** For multiple Bets (e.g., Combo, System, or Bet Builder Bets) containing both Early Payout and non-Early Payout selections, only the selections meeting the Early Payout conditions will be settled early. The remaining selections will continue to be settled in accordance with these Betting Rules.
- **f)** The Sportsbook reserves the right to suspend, modify or withdraw any Early Payout market at any time including for reasons such as technical issues, human error, betting integrity, legal compliance, or other. Bets on Early Payout markets already accepted shall remain subject to the conditions applicable at the time of acceptance of the respective Bet, unless otherwise stated in these Betting Rules.
- **g)** The Sportsbook reserves the right to reject or void any Bet on Early Payout markets in accordance with these Betting Rules. In such cases, the general provisions relating to void Bets shall apply.
- **h)** In the event of an erroneous settlement due to technical issues, human error, or game-related circumstances (including, but not limited to, VAR decisions), the Sportsbook reserves the right to correct the settlement in accordance with the general Betting Rules regarding settlement of Errors.

- i) Any matters not expressly addressed in this section shall be governed by these Betting Rules.

5.1. Match (1X2)

This market allows betting on the Outcome of a Match or Event within Regular Time.

- “1” – Home Team (or the participant listed on the left side).
- “X” – Draw (the selection in the middle).
- “2” – Away Team (or the participant listed on the right side).

Example: You bet on “1” in a football match.

- If the score is 1:0, your bet **Wins**.

5.3. 2 Way Markets (Winner, Draw No Bet, Head-to-Head)

This Market type offers only two possible outcomes to bet on.

- **The "Missing Outcome" Rule:** If an Outcome occurs that was not available for selection in the Markets (e.g., a Draw occurs in a Market with only "Home" and "Away" options), the Stake is Refunded (Odds 1.00).
- **Timeframe & Extra Periods:** By default, Bets are settled based on **Regular Time**. Additional periods (Overtime, Penalties, Super Overs) are only included if explicitly stated in the Market name.
- **Implicit Inclusion:** Certain 2-way Markets by their nature include all stages necessary to determine a final winner, such as "To Qualify" or "To Lift the Trophy".

Examples of Settlement:

Example 1

Sport: Basketball

Market : **Winner (incl.overtime)**

Outcomes: Team A vs Team B

- Team A wins 110:105.
- Result: Win for Team A.

Example 2

Sport: Football

Market : **Draw No Bet**

Outcomes: Team A vs Team B

- The match ends 1:1.
- Result: Bet is Void since "Draw" was not a selection, the Stake is refunded.

Example 3

Sport: Formula 1

Market : **H2H**

Outcomes: Driver A vs Driver B

- Driver A finishes 4th, Driver B finishes 7th.
- Result: Win for Driver A.

Example 4

Sport: Football

Market: **To Qualify**

Outcomes: Team A to Qualify

- The match ends 1:1 in Regular Time. Team A eventually wins the Penalty Shootout and progresses to the next stage.
- Result: Win. Markets on tournament progression inherently include all extra stages (Overtime and Penalties) required to determine which team advances.5.4. The result of an Event will be determined on the date of the Event's conclusion, unless the official result is provided later. The result of an Event will be the final determination by the Event's governing body on the date of the Event's completion, except where expressly stated otherwise in these Betting rules. In the case if any Event is provided outside of official competitions, then bets shall be settled using the information provided by the Event organizer.

5.4. Totals (Over/Under)

A Bet on the total number of occurrences (goals, points, corners, bookings, rebounds, assists, fouls, etc.) in an Event. The End User predicts whether the final count will be higher (**Over**) or lower (**Under**) than the specified Line.

5.4.1. Standard Fractional Totals (e.g., 0.5, 1.5, 2.5)

For this Market the Market outcomes have no "middle ground." The Bet either wins or loses.

Example: Total Over 2.5 goals

- **3 or more goals were scored in the Match (e.g., 2:1, 3:0): The Bet Wins.**
- **2 or fewer goals were scored in the Match (e.g., 1:1, 2:0): The Bet Loses.**

5.4.2. Whole Totals (e.g., 1.0, 2.0, 3.0)

These Market outcomes allow for a Void if the final count exactly matches the relevant Market outcome.

Example: Total Over 2.0 goals

- **3 or more goals were scored in the Match: the Bet Wins.**
- **Exactly 2 goals (e.g., 1:1, 2:0) were scored in the Match: The Bet is Void.**
- **1 or 0 goals were scored in the Match: the Bet Loses.**

5.4.3. Asian Totals (Quarter lines: e.g., 2.25, 2.75)

In these Markets, the Stake is automatically **divided into two equal halves** between the two closest half-number Market outcomes.

A) Market outcomes ending in .25 (e.g., 2.25) *One half of the Stake is on a whole number (2.0), the other half of the Stake is on the fractional number (2.5).*

Example: A Stake in amount of \$100 is placed on "Total Over 2.25" (*Part of the Stake in amount of \$50 goes to Over 2.0 and part of the Stake in amount of \$50 goes to Over 2.5). The Bet is accepted.*

- 3 or more goals are scored in the Match: Both halves of the Stake win.
- Exactly 2 goals are scored in the Match: The Over 2.0 part of the Stake is a Void Bet, but the Over 2.5 part of the Stake is a Loss. The Bet gets \$50 back (Half Loss).
- 1 or 0 goals are scored in the Match: Both halves of the Stake lose. The Bet loses in full.

B) Lines ending in .75 (e.g., 2.75) *One half of the Stake is on a fractional number (2.5), the other half of the Stake is on a whole number (3.0).*

Example: A Stake in amount of \$100 is placed on "Total Over 2.75" (*\$50 goes to Over 2.5 and \$50 goes to Over 3.0). Bet is accepted.*

- 4 or more goals are scored in a Match: Both halves of the Stake win. Bet wins in full.
- Exactly 3 goals are scored in a Match: The part of the Stake on Over 2.5 part wins, but the part of the Stake on Over 3.0 part is a Refund. The Bet gets a winnings for \$50 + \$50 as a Refund (Half Win).
- 2 or fewer goals are scored in a Match: Both halves of the Stake lose. Bet loses in full.

5.5. Handicaps

“Handicap” is a Market where a selected Outcome is adjusted by a predefined Handicap, which is added to or subtracted from the final score of the Event, Period, or Total, as applicable, to determine whether the selection Wins or Loses.

5.5.1. European Handicap (3-Way Handicap)

In this format, the Handicap is presented as a score (e.g., **0:1, 1:0, 0:2**) in the description of the Market. Three outcomes are available: **Home, Draw or Away**.

- **Settlement Rule:** Result of the Match + Handicap = Result for Settlement.
- **No Refunds:** If the Result for Settlement is a Draw, only Bets on the "Draw" selection wins.

Example: Team A vs Team B | Handicap 0:1

(This means Team B starts the Match with a 1-goal advantage)

- **Result of the Match 1:0**, Add the Handicap (0:1) = Result for Settlement **1:1**.
 - **Bets on "Draw"** win. Bets on Team A or Team B **lose**.
- **Result of the Match 2:0**, Add the Handicap (0:1) = Result for Settlement **2:1**.
 - **Bets on "Team A"** win.
- **Result of the Match 0:0**, Add the Handicap (0:1) = Result for Settlement **0:1**.
 - **Bets on "Team B"** win.

5.5.2. Asian Handicap (Whole and Half Market selections)

This is a 2-way market (no "Draw" option).

- **The "Void" Rule:** If the Result for Settlement after applying the Handicap is exactly equal to the relevant Market selection, all Bets placed on this Market selection are **Void** and refunded at Odds 1.00.

Example 1 (Half Line -1.5): > * Team A wins by 2 or more: **Win**.

- Team A wins by 1 goal, draws, or loses: **Loss**.

Example 2 (Whole Line -3.0):

- Team A wins by 4 or more goals (4:0, 5:1): **Win**.
- Team A wins by **exactly 3 goals** (3:0, 4:1, 5:2): **Void/Refund**. Since the victory margin is exactly equal to the Line, the Stake is refunded.
- Team A wins by 2 goals or less, draws, or loses: **Loss**.

5.5.3. Asian Handicap (Quarter Lines: e.g., -0.75, +1.25)

The Stake is divided into two equal halves between the two closest half-number Market selections.

A) Lines ending in .25 (e.g., -1.25) *One half of the Stake is on -1.0, the other half of the Stake is on -1.5.*

Example: A Stake in amount of \$100 is placed on Team A (-1.25). Bet is accepted.

- **Win by 2+ goals:** Both halves win. **Full Win.**
- **Win by exactly 1 goal:** The -1.0 part is a Refund, the -1.5 part is a Loss. You get **\$50 back (Half Loss).**

B) Lines ending in .75 (e.g., -0.75) *One half of the bet is on -0.5, the other half is on -1.0.*

Example: \$100 on Team A (-0.75)

- **Win by 2+ goals:** Both halves win. **Full Win.**
- **Win by exactly 1 goal:** The -0.5 part wins, the -1.0 part is a Refund. You get your **winnings for \$50 + your \$50 refund (Half Win).**

5.6. Correct Score

This Market requires predicting the exact final Result of a Match or a specific part of it (e.g., 1st Half, 2nd Half, Set, or Period).

- **5.6.1. Selection List:** The Sportsbook offers a list of Markets - Potential Scores. For a Bet to win, the Result of the Match has to be equal to the potential score mentioned in the Market.
"Any other score"/"Other". In addition to Markets with a defined score, Sportsbook may offer a Market "Any Other Score" (or "Other") . In case the Result of the Match was none of the scores mentioned in the Markets of the Selection list Bets (if any) placed on "Any other score" (or "Other") win. If no such option is provided and the final Score is not listed among the Selection List Markets, all the relevant Markets will be settled as Lost, subject to the specific sport rules.
- **5.6.2. Team Order:** All Scores are settled based on the official order of teams or participants (**Home Team score : Away Team score**).
Example: A Bet on **2:1** is only a Winner if the Home team scores 2 and the Away team scores 1. A Bet on a Score of **1:2** results in a **Loss**.
- **5.6.3. Regular Time:** Unless the Market name explicitly states otherwise (e.g., *"Correct Score incl. OT"*), all Bets are settled based on the Result at the end of Regular Time.

- **5.6.4. Specific Periods (Quarter, Set, Period etc.):** Correct Score can be offered for specific segments of a match/game/Event e.g.:
 - **Half-Time Correct Score:** Only goals scored in the first half count.
 - **2nd Half Correct Score:** Only goals scored in the second half count (the "score" for this market starts at 0:0 at the beginning of the half).

Example 1 (Standard): A Bet is on "2:1" for a Soccer match.

- Final score of the match is 2:1. Result: The Bet wins.
- Final score is the match 1:2 or 1:1. Result: The Bet is lost.
- Final score is of the match is 2:1 in Overtime (after 0:0 in regular time). Result: The Bet is Lost (since the regular time score was 0:0).

Example 2 ("Any Other Score"): A Bet is on "Any Other Score". The offered Selection List went up to 6:6.

- The Match ends 7:3 or 8:2. Result: The Bet wins since the Results of the Match were not individually listed in the Selection List and the Results of the Match fall under "Any Other Score".

5.7. Both Teams to Score (BTTS)

A Market where the End User predicts whether both Teams will score at least one goal/point each within the specified timeframe.

- **5.7.1. Market "Yes" Outcome:** Bets on this Market win if both Teams score at least one goal/point during the selected timeframe each. For settlement purposes, **own goals** are counted to the Team that receives the point on the scoreboard.
- **5.7.2. Market "No" Outcome:** Bets on this Market win if at least one team (or both) fails to score.
- **5.7.3. Score 0:0 settlement:** If the match ends **0:0** in regular time, the "No" selection is deemed the winner.

Example: A Bet is on "**BTTS: Yes**".

- Match ends **1:1**. Result: **The Bet wins**.
- Match ends **2:0**. Result: **The Bet is lost**.
- Match ends **1:1 in Overtime** (after 0:0 in Regular Time). Result: **The Bet is lost** (Should the Market explicitly include Overtime, the Bet would win)

5.8. Odd/Even

The Market provides betting on whether the total number of goals, points, or other specified stats (e.g., corners, cards) in a Match or a specific period of a Match will be an **Odd** or **Even** number.

- **5.8.1. Odd:** Any Total Result that results in an odd number (1, 3, 5, 7, 9, etc.).
- **5.8.2. Even:** Any Total Result that results in an even number (0, 2, 4, 6, 8, etc.).
- **5.8.3. The "Zero" Rule:** For the purposes of Settlement, a total Result of **zero (0)** is always considered an **Even** number. This applies to Markets of all sports and all stat categories (e.g., 0:0 score, 0 corners, 0 cards).

Examples of Settlement:

Example 1 (Football): The Bet is on "**Total Goals: Odd**".

- The match ended **2:1**. Total goals scored during the Match 3. The Bets placed on this Market win.

Example 2 (Basketball): The Bet is on "**Total Points: Even**".

- The match ends **102:98**. Total points scored during the Matches is 200. The Bets placed on this Market win.

Example 3 (The 0:0 Scenario): The Bet is on "**Total Goals: Even**".

- The match ends **0:0**. Total goals scored during the Match is 0. The Bets placed on this Market win.

5.9. Period & Interval Markets

These Markets provide betting on the Outcome of specific timeframes (Halves, Quarters, Periods) or minute intervals (e.g., "Total after 75 minutes").

5.9.1. Half Time / Full Time (HT/FT)

The Market offers predicting the Result at half-time **and** the final outcome of a Match.

Format Protection: If the Match format changes (e.g., 3 periods instead of 2 halves), Bets on the relevant Match are **Void**.

5.9.2. Independent Period Betting (e.g., "2nd Half Winner")

For this Market only events occurring **strictly within that timeframe** count for the purposes of Settlement - as if the score "resets" to **0:0** at the start of that period.

5.9.3. Result at end of Period (Cumulative)

The Bets on this Market are settled based on the **total Result on the scoreboard** at the moment the specified period ends (i.e. the Result includes all points/goals scored from the start of the Match).

5.9.4. Minute Intervals (e.g., "1-15 min", "after 75 min")

Bets on these Markets are settled based on Results in accordance with the official mMatch clock. For the avoidance of doubt, the following timing rules apply:

- **Minute Definition:** The **1st minute** is from **00:00 to 00:59 of the Match time**.
 - The **15th minute** is from **14:00 to 14:59 of the Match time**.
 - The **75th minute** is from **74:00 to 74:59 of the Match time**.
- **Interval Boundaries: "1-15 min" interval:** Includes all betting Events and Market Outcomes occurring strictly from **00:00 to 14:59 of the Match time**. A goal at **15:00 of the Match time** is considered to have occurred in the **16th minute** (the next interval) of the Match time.
- **"After 75 minutes":** The interval includes all betting Events and Market Outcomes occurring strictly from **75:00 until the end of the Match time**. Any event occurring up to 74:59 is outside the Market interval.
- **Injury Time (Stoppage Time):** Events taking place during the injury time are settled as having occurred at the **final second of the last minute** of that half of the Match.
 - A goal at **45+1' of the Match time** is settled as occurring at **44:59** (45th minute) of the Match time.
 - A goal at **90+3' of the Match time** is settled as occurring at **89:59** (90th minute) of the Match time.

For the avoidance of doubt, injury time is not included in single-minute markets or intervals of one minute or less unless expressly stated otherwise.

Examples of Settlement:

Example 1 (The 15:00 Rule): The Bet is on **"Goal between 1-15 min"**.

- Goal is being scored at **14:59 of the Match time: Result: The Bet wins.**
- Goal is being scored at **15:00 of the Match time: Result: The Bet is lost.**
The goal was scored during the start of the 16th minute of the Match.

Example 2 (Total after 75 minutes): The Bet is on **"Over 2.5 goals after 75 minutes"**.

- The 3rd goal is scored at **74:59 of the Match time: Result: The Bet is lost .**

The 3rd goal is scored at **75:00 of the Match time: Result: The Bet wins .**

Example 3 (Single-Minute Market): Bet on "Goal in the 15th Minute" (covers the exact timeframe from 14:00 to 14:59).

- Goal scored at 14:59. **Result: The Bet Wins.**
- Goal scored at 15:00. **Result: The Bet Loses** (this is the start of the 16th minute).

5.10. Dynamic & Event Markets

These Markets provide betting on specific occurrences or reaching specific milestones during the Match.

5.10.1. Race to X (Points, Goals, Corners, etc.)

Market provides betting on which Team or participant will be the first to reach a specific tally of a predefined occurrence by the end of the Match or in a specified timeframe.

- **Settlement:** The Bet is settled as won as soon as one participant reaches the specified number.
- **The "Neither" Condition:** If the specified tally is not reached by the end of the Match or the specified timeframe and no "Neither" or "None" Markets were offered, all Bets on that Market are declared **Void** .

5.10.2. Next Occurrence (Next Goal, Next Point, Next Scorer)

Market provides betting on which participant will be responsible for the very next specific Event in the Match as defined in the description of the Market.

The "No Event" Rule: If the Match ends or the specified timeframe expires before the relevant Event occurs, the Bet is **Void**, unless a "No further goal/point" (or similar) option was available for selection.

5.10.3. Chronological Events

Market provides betting on which Team or participant will be the "First" or "Next" to achieve a specific Event (e.g., First Card, First Corner, First Penalty).

Settlement: Settlement of the Market is based on the chronological order in which the Event mentioned in the description of the Market occurs according to official Match data.

Simultaneous Events Rule: If it is not possible without any reasonable doubt to determine the winning Outcome (for example, in the case of players from different Teams being shown a card simultaneously in the same interruption of play), all affected Bets will be **Void**.

5.11. Outright & Comparison Markets

These Markets provide betting on the final results of a tournament, league, or specific competition, rather than a single Match.

5.11.1. Outright (Winner)

The Market provides betting on the winner of a specific competition, tournament, or league.

Settlement: The Market is settled based on the official final standings or podium at the time of the Event's conclusion.

Non-Runner Rule: If a participant listed in the Market does not take any part in the competition (e.g., withdraws before the tournament starts), bets involving that participant are **Void**, unless Specific-Sports rules determine otherwise.

5.11.2. Place (Top Finish)

Market provides betting on participant finishing the Event within a specified range of positions in the final classification (e.g., Top 3, Top 5, Top 10).

Settlement: The Bets on the Market are settled as winning as long as the participant finishes within the defined range (e.g., 2nd place for a "Top 3" market).

5.11.3. Head-to-Head (H2H)

The Market provides betting on a comparison between two specific participants - which of the two will achieve a better final position or result in an Event.

Settlement: If one participant finishes higher than the other according to the official Result of the Event, Bets on the participant finishing in the higher position win.

Both must start: For the Bet to stand, both participants must start the Event. If one or both do not participate, the Market is **Voided**.

5.11.4. Triple-Head

The Market provides the betting on which one of the three listed participants will achieve the best result among them.

If one participant finishes higher than the others according to the Result of the Event, Bets on the participant finishing in the higher position win.

Participation Rule: All three participants must start the Event for the Bet to stand; otherwise, the Bets on this Market shall be **Voided**.

5.12. Special Team Markets

These Markets provide betting on specific performance conditions for a Team or participant during an Event.

5.12.1. Team to Score First and Win

The Market provides betting on that the specified Team will score the very first goal (point and other type of scoring metrics) of the Match and also will win the Match.

- **Settlement:** Both conditions must be met for the Bet to win.
- **The "No Goal" Rule:** If the Match ends in a **0:0** draw , all Bets on this Market are **Voided**.

5.12.2. Clean Sheet

The Market provides betting on that a specific Team will not concede a single goal during the entire Match (Regular Time).

- **Market Selection "Yes":** The specified team must keep its score at zero for the specified opponent team (e.g., Match ends 1:0, 0:0, 3:0).
- **Market Selection "No":** The specified Team concedes at least one goal.

5.12.3. Team to Win From Behind

The Market provides betting on that a specific Team mentioned in the Market description will win the Match after having trailed by at least one goal at any point during the Event.

- **Winning Condition:** The Team must be losing (e.g., 0:1, 1:2) at some point, but the final result must be a win for them.
- **Draws/Losses:** If the Team makes a comeback but only manages a draw, the Bet is a **Loss**.

5.12.4. Team to Win All Halves/Periods (e.g., "Win Both Halves")

The Market provides betting on that a Team will score more goals than its opponent in **every** stipulated period of the Match separately.

- **Independent Calculation:** For the purposes of this Market, each half/period is treated as a separate "mini-match" starting at 0:0.
- **Settlement:** For a Bet to be settled as winning, The team mentioned in the Market must "win" the first half **and** "win" the second half independently.

Example (Team A Win Both Halves):

Scenario A 1st Half score: **1:0** (Team A wins the half). 2nd Half score: **1:0** (Final Score 2:0. Team A wins the half).

Result: Bets placed on the Market are settled as winning.

Scenario B: 1st Half ends **2:0**. 2nd Half ends **0:0** (Final Score 2:0).

Result: Bets placed on the Market are settled Lost, because Team A did not "win" the second half; it was a draw.

5.13. Additional Market Definitions

5.13.1. Injury Time (Stoppage Time)

Any reference to "Injury Time" in a Market refers to the amount of time displayed by the designated official (e.g., the fourth official's board) and not to the actual duration of match.

5.13.2. Awards (Man of the Match, MVP, etc.)

Settlement of Bets on Markets such as "Man of the Match", "Most Valuable Player" (MVP), etc., shall be based solely if and to whom any respective awards are awarded based on the official Event Organizer's decision, unless expressly stated otherwise in the Market.

6. Events and Resulting

6.1. Result Determination & Finality

6.1.1. Informational Data (Dates, Times and Live Scores): The dates, times, live scores, clocks, match statistics of Events posted in the Sportsbook are strictly for informational purposes. Neither the Sportsbook nor the Operator guarantees the accuracy of such information. An time or date incorrectly posted in the Market description is not a valid reason for voiding bets, with the exception of Late Bets. Incorrectly posted dates or times, or live scores, clocks, or statistics, are not valid reasons to void Bets.

6.1.2. Basis for Settlement All Bets on an Event (including all Markets within such an Event) shall be settled after the respective Event has completed and the official Result has been announced.

- **Timeline of Result:** The official Result is determined on the date of the Event's completion, unless the governing body provides the Result at a later date.
- **Governing Body Authority:** The official Result as determined by the Event's governing body is final for settlement purposes, except where these Betting Rules expressly state otherwise.
- **Non-Official Events:** Bets on Events outside of official professional competitions (e.g., friendly or exhibition matches) shall be settled based on information provided by the specific Event organizer.

6.1.3. No Recognition of Protests (The "First Official Result" Rule) For settlement purposes, the Sportsbook recognizes only the result achieved on the field of play. Any subsequent protested, overturned, or overturned decisions (due to doping, technical appeals, or disciplinary actions) that change the result after the official announcement will not be recognized.

6.1.4. Finality of Settlements (The 72-Hour Window) Settled Markets are final after 72 hours from the Settlement. Within this period, the Sportsbook may only correct Settlements due to human error, system error, or errors in the referenced source of Results. After 72 hours from Settlement, all Settlements are final, and no queries regarding Settlement will be accepted.

6.1.5. Changes of Venue

- **Neutral Ground:** If an Event is moved to a neutral venue, all bBets will stand, provided the Home and Away teams are still designated as such.
- **Swapped Teams:** If the Home and Away teams for a listed match are reversed (i.e., the match is played at the original Away team's ground), bets placed based on the original listing will be **Voided**.
- **City Change:** If an Event is moved to a different city but the designated Home team remains unchanged, Bets will stand.

6.1.6. Inclusion of Overtime. All Match Markets **DO NOT** include overtime, unless expressly stated otherwise in the Market name or in the applicable Sport-Specific Rules.

6.2. Postponements, Cancellations, and Delays

6.2.1. Events not starting at scheduled time If an Event does not start at its scheduled time, the following rules apply:

- **Official Cancellation:** If an Event is officially cancelled before it starts, all Bets will be Voided.
- **Delay:** If the Event is delayed and Event organizer has not provided updates regarding rescheduled time of the respective Event within **12 hours** of its originally scheduled start time, all Bets related to the affected Event shall be void. If the Event organizer reschedules the Event within 12 hours of the initially planned start time, and the Event commences within **48 hours** of the original start time, all Bets shall stand.
- **Sports Exceptions:** Where sport-specific rules provide otherwise, those sport-specific rules shall prevail and settlement of Bets placed on the relevant Event shall be determined in accordance with the respective sport rules.

6.2.2. Interrupted, Postponed, or Suspended Events If an Event has started but is interrupted, postponed or suspended, and is not completed within **48 hours** of its official start time, all Bets placed on the respective Event shall be voided, with the following exceptions:

- **Settled Periods:** Bets on Markets related to completed periods, sets, rounds, or segments of the Event that have been completed and settled prior to the interruption or suspension (e.g., 1st Half in football).
- **Decided Outcomes:** Markets where the Result is already determined by the official score at the time of interruption or suspension (e.g., "Total Over 2.5" if 3 goals were already scored).
- **Long-duration Events:** Markets related to Events which, under their official format, normally extend beyond 30 hours (e.g., golf tournaments).

Sport-Specific Settlement: If Sport-Specific Rules provide otherwise, those rules shall prevail. Where no such rules apply, this clause shall govern the Settlement.

6.2.3. "Unconditionally Determined" Outcomes

For the avoidance of doubt, a Bet is considered Unconditionally Determined if no possible future Events in the match can change the relevant outcome.

- **Example 1 (Over/Under):** The Bet is on "**Total Over 2.5 goals**". The match is interrupted at the 60th minute with a score of **2:1**.

- **Result:** The Bet is settled as **winning** Since 3 goals have already been scored, the Outcome relevant to the Market has already taken place regardless whether the match continues or not.
- **Example 2 (Over/Under):** The Bet is on "**Total Over 2.5 goals**". The match is interrupted at the 60th minute with a score of **0:0**.
 - **Result:** The Bet is **Void**. The Outcome relevant to the Market was not decided at the time of interruption, but should the match be continued - the end Result might be different.
- **Example 3 (1X2):** The Bet is on "**Team A to win**". The match is interrupted at the 80th minute with a score of **3:0**.
 - **Result:** The Bet is **Void**. Even though Team A was leading, the Event was not completed to its official duration and the final Result of the match as it would be upon completion thereof remains unknown.

6.3. In-Play Scores and Period Settlement

6.3.1. Scores at Time of Placement

Any incorrect scores displayed during the match or roll back of the in-play score (with the exception of soccer goals and red cards, which may lead to Market suspension) are not grounds for voiding Bets.

6.3.2. Independence of Periods

Bets placed on Markets relevant to a specific period shall apply only to the events occurring within that period and shall not be affected by events in any prior or subsequent periods , unless the Market name or Sport-Specific Rules state otherwise.

6.4. Draw Scenarios and Winner Markets

6.4.1. Outcome when "Draw" is Offered

If a Draw outcome is offered within a Winner Market and the Event ends in a Draw, all Bets placed on the competing teams of a Winner market shall be settled as lost.

6.4.2. Outcome when "Draw" is NOT Offered

If a Draw outcome is not offered within a Winner Market and the Event ends in a Draw, all Bets on the relevant Market shall be voided, unless expressly stated otherwise in the applicable Sport-Specific Rules.

6.5. Technical Issues and Forfeits

6.5.1. Forfeits and Walkovers

If any Event involves a forfeit, walkover, or any other situation where the Event is considered complete without having been played, all Bets on that Event and its Markets will be void, regardless of the score awarded by the Event organizer.

6.5.2. Errors in Names and Leagues

Misspellings, typographical errors, teams changing names, and incorrect leagues shall not be a reason for a Bet to be voided, as long as it is reasonably clear which Event and competitors were initially intended and they reasonably judging have not changed, **unless otherwise stated in specific Sport Rules**.

6.5.3. Incorrect Match Format If an Event takes place with an incorrect number of sections (e.g., periods, sets, etc.) or a non-standard duration, and this deviation is not indicated in the Market, all Bets on such an Event shall be void.

6.6. Aggregate and Multi-way Markets

6.6.1. Aggregate Home/Away Markets For the Market "Aggregate Home/Away score of a league on a day (or week in the case of American football)", if all Events on that day/week in that league are not played to completion, all Bets on the impacted Market shall be void.

- "Completion" for the purpose of this clause is defined according to the rules in Section 6.2 (e.g., played within 48 hours or according to sport-specific duration).

Example: In a "Football Matchday: Home vs Away goals" Market, if 9 out of 10 matches are finished, but one match is abandoned and not completed within the

timeframe of 48 hours from its scheduled time, all Bets on the aggregate Market shall be void.

6.6.2. Multi-way Betting Action For the Market “Multi-way betting”, Bets shall be valid, unless the Market specifies that a particular competitor must participate for action. If such a stipulation exists and the competitor does not start, then all Bets on that Market shall be void.

6.6.3. Multi-way Payouts:

This rule applies to Markets designed for multiple winners (e.g., "Top 3 Finish"). The Settlement shall be based on full amount of the relevant Odds for all Markets where the relevant competitors finish **clearly** within the designated range. However, if there is a tie for the **final remaining position(s)** in such a Market (e.g., three players tie for the 3rd spot in a "Top 3" market), **Dead Heat rules (Section 6.7.2) will be applied only to those participants involved in the tie.**

6.6.4. “The Field” Selection If a Market is offered with “The Field” as a betting option, the team or competitor named in the Market must beat every other competitor for a Bet on that competitor to win. If a competitor named in the Market ties for a win, the relevant Bets will be void, and Bets on “the Field” will be lost.

Example: In a "Top Scorer" Market a Bet on Player A, Player B, and "The Field" (all other players) are offered.

- If Player A scores 5 goals and everyone else scores 4 or less during the same Event, Bets on Player A for this Market shall win.
- If Player A and Player B both score 5 goals (a tie), bets on both A and B shall be void.

6.7. Outright Markets, Racing, and Dead Heat Rules

6.7.1. Outright Betting (Participation and Finality) The Market provides betting on the winner of a competition or a specific placement within an Event.

- **Non-Runner Rule (Refund):** If a participant or a team listed in an Outright market does not take any part in the competition (does not start), all Bets on the relevant Market selections shall be **voided**.
 - *Note:* If the participant competes in any part of the Event (e.g., plays one second or starts one qualifying heat) and then withdraws or is disqualified, the Bet stands and will be settled as a **Lost**.
- **Steward Inquiries & Pending Decisions:** Settlement may be delayed if the official Result is subject to an ongoing investigation or "steward inquiry" by the governing body. In such cases, The Sportsbook will settle Bets upon the first official confirmation.
- **The Podium Rule:** All Outright markets are settled based on the official Result at the time of the podium presentation, medal ceremony, or official award announcement.
 - Any subsequent disqualifications, appeals, or changes to the standings made after the initial official result (e.g., due to doping or technical breaches discovered days later) **will not be recognized** for betting purposes.
- **Shortened Competitions:** If a tournament or season is shortened or interrupted, Bets will be settled according to the official winner declared by the governing body. If no official winner is declared, all Bets shall be void.

6.7.2. Dead Heat Rule

Dead heat rules apply where there is more than one winner in an Event for a specific position.

Settlement Logic: If multiple participants tie for a position, for the purposes of Settlement the Stake is divided with a number of participants who tied the relevant position. The portion of the Stake attributable to the Market selection is settled at the full Odds as a Win; the remainder of the Stake is settled as a Loss.

Example 1: 2 Winners:

The amount of the Stake in a Bet is **\$100** at Odds **6.00**.

- Two participants tie for 1st place.
- Calculation: $\$100 / 2 = 50\$$
- \$50 is settled as a **Win** at 6.00 ($\$50 \times 6.00 = 300\$$)
- \$50 is settled as a **Loss**.
- Total Payout: **\$300**.

Example 2: Top 5 Finish

The amount of the Stake in a Bet on Player D is: \$100 at Odds 5.00.

- **Market:** Top 5 Finish.
- **Scenario:** Positions 1, 2, 3, and 4 are clearly occupied by individual players. However, for the **5th (and final)** position, five players (including Player D) have finished with the exact same score/time.
- **Settlement:**
 - The Stake is divided by the number of participants tied for the remaining winning position -> **$100/5 = 20$**
 - **\$20 is settled as a Win at odds 5.00 -> $20 \times 5 = 100$**
 - **\$80 is settled as a Loss.**
- **Total Payout: \$100**

6.7.2.1. Dead Heat in Combo (Accumulator) Bets

If a selection within a Combo Bet is settled under Dead Heat rules, the potential winnings are adjusted according to the Dead Heat factor applicable to that specific selection.

Example:

- **Total Combo Odds:** 2.44
- **Stake:** €172.00
- **Dead Heat Event:** One of the selections in the combo resulted in a tie where 2 participants shared 1 position (Factor = 2).

Settlement: If the relevant Combo Bet is winning, The Dead Heat terms are applied to the entire Combo Bet. The calculation can be expressed in two equivalent ways:

1. **Settlement based on Stake Adjustment:** $(€172.00 / 2) \times 2.44 = \text{€}209.84$; or
2. **Settlement based on Odds Adjustment:** $€172.00 \times (2.44 / 2) = \text{€}209.84$

Important Note: For the purposes of Combo Bets, the Dead Heat Rule does not Void the relevant Market selection. Instead, the Stake or Odds (either of them) for that Combo Bet is proportionally reduced based on the number of tied participants. If multiple legs in a Combo are subject to Dead Heat rule, all reductions are applied cumulatively.

6.7.3. Head-to-Head (H2H) and Triple-Head Participation A "Head-to-Head"

and/or "Triple-Head" allows betting on a competition between two or three participants/Outcomes.

- **Non-Starter Rule:** If one of the competitors of an Event did not start, the Sportsbook shall void Bets on this head-to-head Market.
- **Exact Names Rule:** If a Market includes exact names of one of two competitors, then all listed competitors must participate in the Event for the Bet to be stand.

6.7.4. Racing Sports (F1, MotoGP, Cycling, etc.) Unless otherwise expressly

provided in the respective Sport-Specific rules, the following rules apply for Head-to-Head (H2H) markets in racing:

- **Better Position:** If both competitors finish the race, the winner is the one who achieves the higher official position.
- **Number of Laps:** If both competitors of an Event did not finish, the winner of the Event will be the competitor who has completed more laps.
- **Same Lap Rule:** If both competitors are out in the same lap (or retire during the same lap), the Sportsbook shall void Bets on this head-to-head Market.

6.7.5. Ties in H2H Position If competitors are in the same position at the end of the Event (e.g. same time, same points, same rank), and no "Draw" or "Tie" option was offered among the Market selection, the Sportsbook shall void Bets on this head-to-head Market. If a Draw/Tie option is offered among the Market selection, the Bets shall be settled according to Draw/Tie option.

6.8. Placeholder and Bracket-Based Resulting

- **6.8.1. Slot Priority:** In tournaments or events where participants qualify through a bracket or group stage, the Sportsbook may offer markets before the specific participants are confirmed. In such cases, the Bet is placed on the **bracket position (slot)**, regardless of which team or individual eventually fills it.
- **6.8.2. Confirmation of Teams:** Once the official participants for a bracket position are confirmed by the governing body of the respective tournament, the competitor titles will be updated respectively. For the purpose of this

market the identity of the specific participants at the time the Bet was accepted is irrelevant and does not affect the validity of the Bet.

- **6.8.3. Change of Participant:** If a team/player is replaced, disqualified, or substituted by the tournament organizer **after** they have been confirmed for a slot but **before** the match starts (e.g., a "Lucky Loser" in tennis or a replacement team in a cup), all Bets remain valid and will be settled based on the performance of the actual competitors of the match.

6.8.4. Finality of Position: Settlement is based strictly on the official progress of the tournament according to the initial rules of the respective tournament. If due to the change of the tournament rules prior or during the tournament the bracket is fundamentally changed in comparison to the initial version (e.g., the tournament format is altered from knockout to round-robin), the Sportsbook shall void all affected Bets.

7. Bet Acceptance, Integrity, and Prohibited Practices

7.1. Acceptance, Limits, and Right of Refusal

7.1.1. Discretionary Acceptance

All Bets will be accepted or rejected purely at the Sportsbook's sole discretion and subject to these Rules and the Sportsbook's risk management policies (as applicable from time to time).

7.1.2. Right to Refuse or Limit

The Sportsbook reserves the right to refuse, restrict, cancel, or limit any Bet or Stake for any Event, Market, or End User.

7.1.3. Maximum Stake Limits

Maximum Bet/Stake limits are subject to change without prior written notice at the Sportsbook's discretion for any Event, Market, Operator, or End User individually. Any such changes will not apply to Bets that have already been accepted.

7.1.4. Suspension of User IDs

The Sportsbook reserves the right to suspend the acceptance of Bets from any unique End User ID without prior notice.

7.1.5. Live (In-Play) Delay

Acceptance of live (in-play) Bets may be delayed or temporarily held suspended during high-risk situations (e.g. free-kick, 1:1 attack, etc.) at the Sportsbook's discretion.

7.2. Errors, Software Faults, and Data Gaps

7.2.1. General Right to Void due to Error

The Sportsbook reserves the right to void Bets (or a part of them) or to suspend Settlement until the end of a trial (including judicial) due to Errors or deviations from the Rules during acceptance.

7.2.2. Typographical and Visual Errors

Bets may be voided in cases of obvious software or website Errors, such as typographical mistakes in offered Events, Markets, discrepancy of Odds, or unusually (in comparison to the situation in the betting market in general) high/low odds.

7.2.3. Late Bets (Past-Posting)

If for any reason a Bet is accepted after an Event has started (other than clearly indicated Live In-Play Betting) or taken place, the Bet will be declared void.

7.2.4. Known Outcomes and Technical Lag

The Sportsbook reserves the right to void any Bet if the Outcome of the Event or Market was known at the time the Stake was placed or Bet accepted, or if Odds were not correctly updated due to technical issues or delayed data feeds.

7.2.5. Obvious Errors, Limits, and Material Advantage

If a Market contains an obvious Error in the Odds or exceeding the limits of the Market determined by the Sportsbook, Bets placed on such a Market shall be void. Bets accepted after an Event has started (other than clearly indicated Live In-Play Bets) will remain valid unless the End User gains a material or unfair advantage. In such cases, the Sportsbook reserves the right to void the Bet acting reasonably.

Material and Unfair Advantage: For the avoidance of doubt, an unfair or material advantage is considered to be gained in scenarios including, but not limited to:

- **Post-Event Placement:** Betting on an Event (occurrence) that has already taken place (e.g., a goal scored, a red card shown, a point won) while the market remains open or the Odds had not yet been updated.
- **Information Asymmetry:** Placing a Stake based on information or a broadcast that is significantly ahead of the Sportsbook's data feed or odds updates.
- **Market Errors:** Placing a Stake on Odds that are clearly "stuck" or failed to update after a significant event (e.g. goal scored, a point won etc.).
- **Limit Circumvention:** Exceeding established Market Limits through technical exploits or multiple placements.

7.2.6. Software Abuse and Reporting Duty

Abuse of gaming software Errors or mistakes in translation is strictly prohibited. An End User who discovers any Error in the gaming software must immediately report it to the Operator. If an End User abuses such Errors, the Operator reserves the right to suspend the account, freeze funds, and Sportsbook reserves the right to cancel all accepted Bets and/or already resulted Bets, if such Bets are directly related to the abuse of the respective gaming software Error or mistake in translation.

7.2.7. System and Data Malfunctions:

In Combo bets (accumulators, parlays, multis). If in a Combo bet there are two or more Markets with related Contingencies (Related Outcomes), such Combo Bets will be declared Void.

Example: End User places Stake on a Combo Bet "Barcelona to win La Liga" combined with a "Barcelona win in the deciding game." Both Outcomes are about the same Event and essence, thus the relevant Combo Bet will be Void.

General Soccer Rules

1.1. Bets on the Outcome of a match will be settled based on two halves of the scheduled number of minutes each (*standardly 90 minutes, consisting of two halves of 45 minutes each*) including any Injury/Stoppage Time added by the referee. It does not include periods of Overtime nor penalty shootouts unless expressly stated.

- **Separation of Halves:** Each half must be played to its full scheduled duration (e.g., 45 minutes). Any Injury/Stoppage time added by the referee is deemed part of the respective half to which it is added and *cannot be added to the duration of the second half* to satisfy the 90-minute requirement.
- **Interrupted Matches:** If a match is interrupted before completion of the scheduled duration (e.g., 45 minutes for each half), settlement shall be governed by Rule 6.2.2 of the General Rules, regardless of any subsequent decision by a governing body to validate the score as final result or declare the match completed.
- **Completion Requirement:** For a match to be considered complete for settlement purposes, the full scheduled duration of each half must be played on the pitch, unless otherwise provided under Rule 6.2.2.

1.2. If the match format was changed, the Sportsbook shall void all affected Bets.

1.3. If a friendly match ended by referee decision earlier than the scheduled duration (e.g. before 80 minutes of play), the Sportsbook reserves the right to void the bets.

1.4. Own goals will not be considered for the purposes of settling “Anytime Goalscorer”, “Player to score X”, “Next Goalscorer” or similar player-specific goalscorer Markets and shall be ignored. For Markets where the sequence or numbering of goals is specified (including team-specific markets), own goals do not count towards the goal numbering sequence.

Example 1: If the official score is 1-0 and the second goal scored is an own goal, the “Next Goalscorer (Goal 2)” market shall be settled based on the next eligible non-own goal.

Example 2: If a team's first goal in a match is an own goal, the “1st Goalscorer (Team X)” market shall remain active and shall be settled based on the next eligible non-own goal scored by a player of that team.

1.5. If the Market was opened with a missing or incorrect red card, the Sportsbook reserves the right to void Bets of respective Market as far as such Bets are affected by the missing or incorrect red card.

1.6. If an incorrect in play event or match time was displayed in the Sportsbook and such discrepancy had a material impact on the Odds, the Sportsbook reserves the right to declare the respective bets Void.

1.7. If a wrong score is entered in the scoreboard of the Sportsbook, the Sportsbook reserves the right to declare void all Bets placed during the period in which the incorrect score was displayed.

1.8. If the team names or tournament are displayed in the Sportsbook incorrectly, the Sportsbook reserves the right to void the respective Bets.

1.9. Interval markets will be settled based on the match time as provided by the Sportsbook data sources. Where unavailable, TV broadcast information and match clock may be used.

1.10. Interval goal markets are settled based on the time the ball crosses the goal line, and not the time the kick is taken.

1.11. The use of the Video Assistant Referee (VAR) (“Video Review”) is considered official when confirmed by the referee through a formal review signal (e.g., drawing a rectangle in the air) or by reviewing the incident on the pitch-side monitor.

N.B. The notification "Goal Check" on the scoreboard, or informal gestures (such as hand to ear by the referee) do not constitute an official VAR review. Conversations between referees and their associates are also not considered for official VAR reviews. [More on the official video review system \(VAR\) Inside FIFA](#) .

1.11. Interval markets will be settled based on the goal time announced by TV broadcasting. If this is not available, the time according to the match clock is considered.

1.12. Penalty Markets will be settled based on the time at which the referee awards the penalty, including decisions confirmed via VAR.

1.13. Penalties awarded but not taken are not considered.

1.14. Venue changes. If a match is moved to a neutral venue, all Bets will stand. If the home and away teams for a scheduled match are reversed (the home team plays away and vice versa), Bets placed on the original Market selection will be voided.

Statistical Markets Rules

1.15 Corners Markets

1.15.1 Settlement Sources & Priority

Corners Markets shall be settled based on visual evidence from the official match broadcast and/or real-time match reporting data provided by the Sportsbook's data providers. In the event of a discrepancy between these sources and statistics published on official league or competition websites, visual evidence and/or match results and event data from the Sportsbook data providers shall prevail for settlement purposes.

- **Finality:** Settlement determined in accordance with this rule shall be final. Subsequent corrections, amendments, or discrepancies on third-party or official websites shall not constitute grounds for re-settlement of a Bet.
- **Corners:** Only corners that are actually taken shall count for settlement of the relevant Bets. Any corner awarded but not taken shall be disregarded.

1.15.2. Awarded vs. Taken Rule

- **General Rule:** Only corners that are actually taken (executed) count for settlement. A corner awarded but not taken before the end of the half or match is disregarded.
- **Exceptions:** Markets specifically related to time intervals (e.g., "*Corner Awarded in the Next 1/5 Minutes*") are settled based on the moment the referee **awards** the corner, regardless of whether it is subsequently taken.

1.15.3. Re-taken Corners

Corner interval Markets are settled based on at what time the corner is awarded and not the time it was taken. Corners awarded, but not taken, do not count. A corner that is re-taken counts as a single corner for settlement purposes.

1.15.4 Interval & Timestamp Logic

For interval-based Markets (e.g., 1-minute or 5-minute intervals), settlement is determined by the **timestamp when the corner is awarded** by the referee, not when it is taken.

- *1-minute intervals:* 1:00–1:59, 2:00–2:59, etc.
- *5-minute intervals:* 1:00–5:59, 6:00–10:59, etc.

1.15.5. Unconditionally Determined (Interrupted Matches)

The Sportsbook adheres to the "Unconditionally Determined" principle as defined in Section 2.17. If a match is abandoned, any corner Markets where the outcome is already determined (e.g., "Total Corners Over 8.5" when 9 corners have already been taken) will be settled as per the result. Markets that have not reached a natural conclusion will be voided in accordance with Rule 6.2.2.

1.16 Bookings (cards) markets

1.16.1 Settlement Sources & Priority

Bookings Markets shall be settled based on visual evidence from the official match broadcast and/or real-time match reporting data provided by the Sportsbook's data providers. In the event of a discrepancy between these sources and statistics published on official league or competition websites, visual evidence and/or match results and event data from the Sportsbook data providers shall prevail for settlement purposes.

- *Finality*: Settlement determined in accordance with this rule shall be final. Subsequent corrections, amendments, or discrepancies on third-party or official websites shall not constitute grounds for re-settlement of a Bet.

1.16.2. Card Counting (Standard Markets)

For most Markets, a yellow card counts as **1** and a red or yellow-red card (second booking) counts as **2**. The second yellow card for a single player is ignored for settlement purposes. As a result, a single player can receive a maximum of 3 card points.

1.16.3. Market Duration

All Bets are settled based on cards shown during **Regular Time** (90 minutes plus Injury Time), as determined by the settlement sources defined in Rule 1.16.1. Any card shown after the Regular Time whistle is disregarded.

1.16.4. Half-time and Stoppage Periods

For the purposes of Bookings Markets cards shown during the half-time interval are attributed to the **2nd half** for settlement purposes, provided that the player receiving the card was listed as an active participant in the match at the start of the second half.

1.16.5. Eligible Participants (Non-Players)

Only cards shown to players who are officially participating in the match (including those on the field of play or temporarily off the field during normal match intervals such as half-time) shall count for the purposes of Settlement. Cards shown to managers, coaching staff, or non-participating players (e.g., unused substitutes) are not considered.

1.16.6. Booking Points System In Markets using the points system the following number of points shall be attributed:

- Yellow Card: **10 points**.
- Red or Yellow-Red Card: **25 points**.
- Maximum points per player: **35 points** (10 for the first yellow and 25 for the subsequent red/yellow-red).

1.16.7. Intervals and Timestamps

Booking interval Markets (e.g., "Card in the Next 1/5 Minutes") are settled based on the **time the card is shown by the referee**, not the time the actual foul/infringement was committed.

1.16.8. Exceptions for Specific Markets (Color-Independent)

For specific Markets such as **Next Carded Team** or **Most Carded Team**, every card event is counted as **1 card**, regardless of its color (yellow or red).

1.16.9. Natural Conclusion (Abandoned Matches)

If a Match is abandoned (In accordance with **Rule 6.2.2**), Markets where the Outcome has already been unconditionally determined at the time of abandonment shall be settled. All other Markets relevant to the Match shall be declared Void.

1.16.10. Bookings 1X2 (Most Bookings)

This Market allows predicting which team will receive more cards during the match, based on the counting logic defined in Rule 1.16.2. This Market uses a simplified

counting method and does not apply the Booking Points System defined in Rule 1.16.6.

- **"1" (Home):** The Home team is credited with more cards than the Away team.
- **"X" (Draw):** Both teams are credited with an equal number of cards.
- **"2" (Away):** The Away team is credited with more cards than the Home team.

Settlement Logic: For the purpose of this Market, cards are weighted as follows:

- **Yellow Card** = 1 card.
- **Red Card (Direct or Yellow-Red)** = 2 cards.
- **Maximum per player** = 3 cards (e.g., a player receiving a yellow card and then a straight red card is credited with $1 + 2 = 3$ cards).

Example: If the Home team receives 1 Red card (counted as 2 cards) and the Away team receives 2 Yellow cards ($1+1 = 2$ cards), the resulting outcome is **"Draw (X)"**.

1.17 Team Stats Markets

1.17.1. Priority of Sources

All markets within this section (Team Stats) shall be settled according to the following strict priority of sources:

1. **Official source** (official league or competition website).
2. **WhoScored** ([Football Statistics | Football Live Scores | WhoScored.com](#)).
3. **365 Scores** (<https://www.365scores.com/>).
4. **Sofascore** ([Football Live Scores, Fixtures & Odds | Sofascore | Championship League, Premier League](#)).

This order is final. If a higher-priority source provides the data, lower-ranked sources are disregarded. Settlement is based on the initial official publication; subsequent changes (disciplinary decisions, etc.) do not constitute grounds for re-settlement.

This source hierarchy applies exclusively to Team Stats markets. For other statistical markets (e.g., Corners, Bookings), settlement shall follow the specific rules defined in the relevant sections.

1.17.2. General Settlement Logic

- **1X2 Markets:** Bet on which team will achieve a higher count of the specified stat during Regular Time.
- **Total Markets:** Bet on whether the combined count for both teams (or the count for one specific team) will be Over or Under the specified Line.
- **Scope limitation:** Markets in this section refer strictly to team-level statistics . Individual player performance Markets are governed by the **Player Props** section.
- **Settlement:** All statistical Markets in this section shall be settled strictly in accordance with the priority of sources defined in Rule 1.17.1.

1.17.3. Offsides

An offside is counted for settlement purposes only if it is officially awarded by the referee and results in a restart of play.

1.17.3.1. Decision Timing: Offsides are settled based on the time when the referee gives the decision. This rule applies to all Video Assistant Referee (VAR) situations, regardless of when the actual infringement occurred.

1.17.3.2. Validation Requirement: An offside is only counted for settlement purposes if a free kick is subsequently awarded (or the play is officially restarted due to the offside call).

1.17.4. Shots

Total attempts to score, including shots on goal, shots wide, and blocked shots.

1.17.5. Shots on Goal (Target)

Attempts that go into the net, or would have gone in if not for a goalkeeper save or a "last-man" block.

1.17.6. Throw-ins

Total number of throw-ins awarded and taken. Throw-ins awarded but not taken are disregarded.

1.17.7. Fouls

Any infringement whistled by the referee as a foul.

1.17.8. Saves

Any intentional intervention by a goalkeeper to prevent a goal.

1.17.9. Goal Kicks

Total number of goal kicks awarded and taken. Goal Kicks awarded but not taken are disregarded.

1.17.10. Total Passes Total number of passes attempted by a team during Regular Time.

- **Counting Logic:** Includes both successful and unsuccessful passes.
- **Exclusions:** The classification of passes and exclusions shall follow the methodology of the designated data source as per Rule 1.17.1.

1.17.11. Specials and Combo Markets If a "Special" or "Combo" Market includes one or more statistical components (e.g., Shots, Offsides, Fouls, etc.), each statistical element within that Market will be settled strictly according to the priority of sources and specific rules defined in this Section (1.17).

- *Note:* Each statistical component within such markets shall be settled in accordance with the specific rules and source priorities applicable to that statistic (e.g., Section 1.15 for Corners, Section 1.16 for Bookings, and Section 1.17 for other team statistics).

1.18 Expected Goals (xG) Markets

1.18.1. Definition Expected Goals (xG) is a statistical metric that measures the quality of scoring chances. Each shot is assigned an xG value based on the probability of it resulting in a goal.

1.18.2. Reference Source All xG Markets are settled strictly based on the data provided by **Fotmob** ([FotMob](#)). No other sources (Official league sites, WhoScored, etc.) shall be considered for xG settlement unless Fotmob fails to provide data for a specific Event.

1.18.3. Settlement Precision Bets are settled using **absolute values in hundredths** (e.g., an xG of 1.45).

- *Example:* If a team's xG is 1.45 and the betting line is Over 1.5, the Bet Loses. If the xG is 1.51, the Bet Wins.

1.18.4. Market Types

- **1.18.4.1. Full Time xG (1X2 / Totals):** Predict the xG values accumulated during the entire Regular Time.
- **1.18.4.2. 1st Half xG (1X2 / Totals):** Predict the xG values accumulated strictly during the first half (including injury time).

Player Props Markets

1.19. Player goals / Player goals (incl. Overtime)

Market Description: Predict whether the selected player will score **at least one or more** goals during the match. Options are offered as totals (e.g., **1+ / 2+ / 3+** etc.). This includes goals scored during Regular Time and, if specifically mentioned in the Market description, Overtime (extra time).

Settlement Nuances: All Bets on this Market are valid **only for players who are in the starting lineup**. If a player is not in the starting lineup, all Bets on that player are declared **Void**, regardless of whether they enter the field of play as a substitute later. Own goals do not count towards the player's total.

Settlement Source: [Livescores - Soccer - Betting Showcase](#) .

Calculation Examples:

1. **Example 1:** A Bet is placed on Player A to score **1+** goals. Player A starts and scores **two** goals. Both **1+** and **2+** Market selections are settled as a **Win**.
2. **Example 2:** A Bet is placed on Player B to score **2+** goals. Player B starts and scores only **one** goal. The Bet is settled as a **Loss**.
3. **Example 3:** A Bet is placed on Player C to score **1+** goals. Player C is not in the starting XI. The bet is settled as **Void**.

1.20. Player assists / Player assists (incl. overtime)

Market Description: Predict whether the selected player will record **at least one or more** assists during the match. Options are offered as totals (e.g., **1+ / 2+ / 3+** etc.). This includes assists provided during Regular Time and, if applicable, overtime (extra time).

Settlement Nuances: All Bets on this Market are valid **only for players who are in the starting lineup**. If a player is not in the starting lineup, all Bets on that player for this Market will be **Void**, regardless of whether they enter the field of play as a substitute later. An assist cannot be credited for an own goal.

Counting Logic: The assist is defined as the final deliberate touch (pass, cross-shot, or any other touch) by a player that directly leads to a teammate scoring a goal. If the final touch is deflected by an opposing player, the original action is still considered to have directly contributed to the goal without materially altering its intended direction or Outcome.

Exclusions: No assist is awarded for own goals, direct free kicks, direct corner goals, or penalties. **Additionally, "Fantasy Assists" are strictly excluded from stats for Settlement purposes.** This includes, but is not limited to:

- Fouls won that lead to a scored penalty or free kick.
- Shots hitting the woodwork or being saved by the goalkeeper, resulting in a goal from the rebound.
- Deflections off an opposing player that significantly alter the ball's trajectory.

Settlement Source: [Livescores - Soccer - Betting Showcase](#) .

Settlement Examples:

1. **Example 1:** A Bet is on Player A to record **1+** assist. Player A starts and provides **two** assists. Both **1+** and **2+** Market selections are settled as a **Win**.
2. **Example 2:** A Bet is on Player B to record **1+** assist. Player B starts but the match ends without them providing an assist. The Bet is settled as a **Loss**.

1.21. Player shots / Player shots (incl. overtime)

Market Description: Bet on whether the selected player will have **at least one or more** shots during the match. Options are offered as totals (e.g., **1+ / 2+ / 3+** etc.).

This includes all shot attempts (shots on target, shots off target, and blocked shots) made during Regular Time and, if applicable, overtime (extra time).

Settlement Nuances: All Bets on this Market are valid **only for players who are in the starting lineup**. If a player is not in the starting lineup, all Bets on that player for this Market are **Void**, regardless of whether they enter the field of play as a substitute later.

What counts as a Shot: Any intentional attempt to score a goal that results in a goal, is saved by the goalkeeper or “last man” block, or goes wide, over, or hits the frame (post or crossbar).

Exclusions: Blocked shots that do not reach the goal area or are blocked by any player who is not the “last man” are not counted as shots.

Settlement Source: [Livescores - Soccer - Betting Showcase](#) .

Calculation Examples:

1. **Example 1:** A Bet is on Player A to have **2+** shots. Player A starts the match and records **three** shots in total. Market selections for **1+**, **2+**, and **3+** are all settled as a **Win**.
2. **Example 2:** A Bet is on Player B to have **1+** shots. Player B starts the match but is substituted at half-time without having taken a shot. The Bet is settled as a **Loss**.

Settlement Source: Match Result / TV Broadcast.

Settlement Examples:

1. **Example (Win):** The Bet on "Team A Clean Sheet - Yes." The match ends 0-0 or 2-0- the other team did not score goals. The Bet is settled as a **Win**.

1.41. Which team will win the rest (Rest of the Match)

Market Description: Bet on which team will score more goals from the moment the Bet is accepted until the end of the match (within Regular Time). If the Bet is

accepted after the match has ended or after the Market is no longer valid, the Bet is void.

Settlement Logic: At the time the Bet is accepted, the score is considered to be **0-0**, regardless of the actual current score in the match.

- Only goals scored **after** acceptance of the Bet has been accepted count toward the settlement of this Market.

Outcomes: Home, Draw, Away.

Settlement Source: TV Broadcast / Official Match Feed.

Calculation Examples:

1. **Example (Draw):** The current score is 2-0. You bet on "Draw" for the rest of the match. The game ends 2-0. Since no more goals were scored, the "rest of the match" score is 0-0. The Bet is a **Win**.
2. **Example (Away):** The current score is 1-0. You bet on "Away" for the rest of the match. The game ends 1-1. Since the Away team scored 1 goal and the Home team scored 0 after your Bet, the "rest of the match" score is 0-1. The Bet is a **Win**.
3. **Example (Loss):** The current score is 0-0. You bet on "Home" for the rest of the match. The game ends 0-1. The Bet is a **Loss**.

2.2.1. Match Tie-break (Super Tie-break): If a match is decided by a Match Tie-break (often used instead of a final set), it will be considered and settled as the **3rd set**. For set-based markets, the Match Tie-break counts as one completed set.

2.3.4. Calculation Examples (Natural Conclusion):

- **a) Set Totals:** If a set is abandoned at 4-4, Bets on **Over 9.5 games** are settled as **Won**, and **Under 9.5** as **Lost** (since any finish requires at least 10 games). Bets on Over/Under 10.5 are **Void**.
- **b) Match Totals (Best of 3):** If a match is abandoned at 6-4, 4-6, Bets on **Over 25.5 games** are settled as **Won**, and **Under 25.5** as **Lost** (since at least 26 games are required to finish). Bets on Over/Under 26.5 are **Void**.

Markets such as "Most Aces", "Most Double Faults", or "Aces Handicap" are declared **Void** if the Match is not completed due to retirement or disqualification.

2.5. Change of Match Format

2.5.1. General Logic:

If the official format of a Match is changed (e.g., the number of sets is reduced from Best of 5 to Best of 3, or "Short Sets" are introduced), the following rules apply:

2.6.1. Definition:

This Market refers strictly to a standard tie-break played when the score reaches **6-6** in any set.

2.6.2. Match Tie-break Exception:

A **Match Tie-break** (Super Tie-break) played in place of a final set (as per Rule 2.2.1) does **not** count as a tie-break for the purposes of settlement of this Market.

2.6.3. Abandonment:

If a standard tie-break has already occurred in the Match before Abandonment, the Market shall be settled as **Yes**.

- If the Match is abandoned before a tie-break had occurred, the Market shall be Void unless a tie-break can no longer occur under any remaining possible scoring scenario.

2.7. Set Betting (Correct Score)

2.7.2. Natural Conclusion (Impossible Outcomes):

If the Match is abandoned, any correct score Outcomes that are no longer unconditionally achievable based on the current set score shall be settled as a **Loss**.

- *Example:* In a best-of-3 match, Player A has already won the first set (1-0). The match is then abandoned. The Bet on "Player B to win 0-2" is settled as a **Loss**, while all other score lines (2-0, 2-1, 1-2) are **Void**.

2.8. Current / Next Game Winner

2.8.1. Completion Requirement:

If a player retires or is disqualified during a specific game, all Bets on the winner of that game (Current or Next) will be **Void**, regardless of the score within the game at the time of retirement.

General Basketball Rules

Important Note: For the majority of Basketball matches, the most common Markets (such as Money Line, Handicaps, and Totals) are offered and settled **including Overtime**. End Users are advised to check the Market name specifically for the "(incl. Overtime)" suffix.

General Basketball Rules

3.1. Overtime (OT) Settlement:

- **Default Rule:** All Markets are settled based on the result at the end of **Regular Time** (4 quarters) unless the Market name expressly includes Overtime (e.g., by adding "(incl. Overtime)" in the title).
- **Segments:**

- **Halves:** 1st Half results consist of the 1st and 2nd quarters. 2nd Half results consist of the 3rd and 4th quarters only. Overtime is **excluded** from 2nd Half markets unless specifically stated otherwise in the Market name.
- **Quarters:** Markets for specific quarters (1st, 2nd, 3rd, 4th) are settled based strictly on the score within that specific quarter and **do not include Overtime**.

3.2. Abandoned Matches & Natural Conclusion Principle:

- If a match is abandoned before the completion of Regular Time, all Markets that have not been settled at the time of abandonment will be **Void**.

Exception: Markets that have already reached a Natural Conclusion (e.g., "Race to 20 points" where a team has already scored 20, or "Total Over 180.5" where the score is already 95-90) will be settled based on the results achieved at the moment of abandonment.

3.3. Postponements & Venue Changes:

- **48-Hour Rule:** If a match is postponed or cancelled, Bets will remain valid if the game starts/resumes within **48 hours** of the original scheduled time. If the delay exceeds 48 hours, all unsettled Bets will be declared **Void**.
- **Venue Change:** If the venue of a Match is changed but the Home team is still designated as the "Home" team, all Bets for that Match stand. If Home and Away teams for a Match are reversed, Bets placed on the original fixture will be voided.

3.4. Incorrect Time/Scoreboard:

- **Time Error:** If an incorrect match time was displayed in the Sportsbook, in cases where the discrepancy had a material impact on the Odds offered, the Sportsbook reserves the right to declare the affected Bets Void.
- **Score Error:** If Markets remain open with an incorrect score that had a material effect on the Odds offered, the Sportsbook reserves the right to void Bets placed during the period of the error.

3.5. Draw/Tie Result & Qualification OT:

- **Qualification OT:** If a match ends in a tie but overtime is played solely for qualification purposes (e.g., 2nd leg of a cup), all Markets for the relevant Match are settled based on the score at the end of **Regular Time**.
- **Money Line (2-Way):** If a "2-Way Money Line" (excluding OT) is offered and the match ends in a draw, the Market will be **Void**.

Basketball Statistical Markets (Team Stats)

3.6. General Settlement Logic for Statistics

- **Sources:** All Markets in this section are settled strictly based on the official box score from the league's official website (e.g., [The official site of the NBA for the latest NBA Scores, Stats & News. | NBA.com](#) , [NCAA.com – The Official Website of NCAA Championships](#) , [EuroLeague | Euroleague Basketball](#)).
- **Overtime:** In accordance with Rule 3.1, statistical Markets are settled based on **Regular Time** results unless the Market name specifically includes **"(incl. overtime)"**.

 - **Handicap:** Bet on the winner of the stat after the specified handicap is applied.
 - **Total:** Bet on whether the combined total (or team total) will be Over or Under the line.

3.7. Rebounds (Totals / Handicaps / 1x2)

- **Calculation Nuance:** Settlement is based strictly on the sum of individual **Offensive** and **Defensive** rebounds credited to specific players.
- **Exclusion of Team Rebounds:** "Team Rebounds" (rebounds credited by officials to a team as a whole rather than an individual player, e.g., after a ball goes out of bounds on a missed free throw) are **strictly excluded**.
- **Final Total:** Only the sum of individual player stats found in the official box score counts toward the total.

3.8. Fouls (Totals / Handicaps / 1x2)

- **Logic:** Settled based on the total number of personal fouls whistled against a team and recorded in the official box score.
- **Exclusions:** Technical fouls on the coach, bench fouls, or administrative fouls that are not credited to a specific player are excluded unless they are expressly recorded as player fouls in the official box score.

3.9. Assists (Totals / Handicaps / 1x2)

- **Logic:** Settled based on the number of successful passes leading directly to a basket, as officially recorded by the league's statisticians.

- **Logic:** Settled based on the number of times a defensive player legally gains possession of the ball from an opponent during live play.

3.11. 2-Points & 3-Points (Totals / Handicaps / 1x2)

- **Logic:** Settlement is based on the number of **successful (Made)** field goals from the respective range.
- **Note:** These Markets count the **number of shots made**, not the total points resulting from them (e.g., five successful 3-pointers count as 5, not 15), unless the Market name specifies "Points from..."

Basketball Player Props Markets

3.12. Basketball Player Props Markets: All player-related Markets (including points, rebounds, assists, and other statistical milestones) are settled based on the individual performance of the specified players. By default, these Markets include any **Overtime (OT)** played and are governed by the following participation and settlement rules:

3.12.1. Participation & "Runner" Rules

- **General Action Rule:** Basketball player Bets stand as long as the player enters the court and participates in the match at any point while the game clock is running, regardless of whether they were in the starting lineup.
- **Non-Runners:** If a player does not enter the court at any point during the entire match, they are considered a "Non-Runner," and all Bets on these Markets for the relevant Match on that player will be declared **Void**.
- **Mid-Match Retirement:** If a player participates for any duration but subsequently leaves the game due to injury, illness, or disqualification, all Bets on these Markets for the relevant Match on that player stand and will be settled based on their recorded statistics at the time of retirement.
- **"First To" Exception:** For Markets such as "First Player to Score [Stat]", the Bet will be **Void** if the selected player did not start the match on the court (at the moment the relevant event occurs).

3.12.2. Settlement & Overtime

- **Overtime (OT):** All Basketball player prop Markets include Overtime for settlement purposes.
- **48-Hour Rule:** If a game is postponed or abandoned and not resumed within **48 hours** of the original scheduled start time, all pending player Bets on these Markets for the relevant Match will be **Void**, unless the result has already been unconditionally determined (Natural Conclusion).

- **Official Sources:** Results are settled based on the official box score provided by the respective league (e.g., **NBA, NCAA, Euroleague**, etc.).
- **Finality of Statistics:** Settlement is based on the final official box score. Subsequent changes or corrections made by leagues after the initial official settlement has been processed will not be considered.

3.12.3. Grouped Market Definitions

- **Individual Totals (Points, Rebounds, Assists, Steals, Blocks, 3-PT Made):** Settled based on the specific statistic credited to the player in the official box score. If the player's final score equals the set Line, the Bet is **Void**.
- **Performance Targets ("At least X"):** Bet is settled as a **Win** if the player meets or exceeds the target (e.g., "25+ Points" wins if the player scores 25, 26, or more).
- **Combo Markets (e.g., P+R+A):** Calculated by summing the individual stats specified in the Market name (e.g., Points + Rebounds + Assists).
- **Double-Double / Triple-Double:** A player must reach double digits (10 or more) in two (Double-Double) or three (Triple-Double) of the following categories: Points, Rebounds, Assists, Steals, or Blocks.
- **Head-to-Head (H2H): 1v1:** Bet on which player will achieve a higher stat. If players tie, the Market is settled as **Void**.
 - **1v2 or 1v3:** The selected player must outscore **all** other listed opponents. A tie for the highest result among players mentioned in the relevant Market selection leads to the Bet being **Void**.

General Participation & Match Conditions

4.13.1. Participation (Action):

4.13.5. Official Data Sources:

Settlement is based strictly on the official box score provided by [NFL.com | Official Site of the National Football League](#) (or the respective league's official site).

Subsequent changes or corrections made by the league after the initial official settlement has been processed will not be considered.

4.13.6. Venue Change:

If the venue is changed from the one scheduled, Bet on all player-specific Markets shall stand provided the game is played on the original scheduled date and the "Home" team designation remains unchanged.

4.13.7. Performance Targets ("At Least" / "Target"): Bets on Single player performance Markets (targets) are settled as a **Win** if the player mentioned in the relevant Market meets or exceeds the specified target.

- *Example:* A Bet on "At least 50 Rushing Yards Player A" (50+) is a winner if the Player A records 50, 51, or more yards.

4.13.8. Over/Under (Totals):

If the player's final score equals the line set in the description of the Market (in cases where a whole number line is offered, e.g., 50.0), the Bet on this Market is **Void**. If a Market on half-number line is offered (e.g., 50.5), the Bets on such a Market shall stand as the result will always be either Over or Under the line.

4.13.9. Head-to-Head (H2H):

A **Standard Touchdown** is credited only to the player who carries or receives the ball in the end zone.

First Drive Outcome: Bet on the specific result of the first offensive Drive. Typical options include: Offensive Touchdown, Field Goal, Punt, and Turnover (includes Interceptions, Fumbles, and Turnover on Downs).

- If a Drive is interrupted by the end of a half or the end of the game before a definitive outcome is reached, the Market for the relevant match is **Void**.

Special Case: If a team scores a touchdown on a kickoff or punt return (Special Teams), or via a defensive return (Pick-6/Fumble return), this does not count as an "Offensive Drive" for that team. Bet on this the Market for that team will be settled based on that team's subsequent first possession from scrimmage.

4.15. Team to Score Xth Touchdown:

Logic: Bet on which team will score the specific touchdown designated by the number "X" (e.g., "Team to score 3rd Touchdown").

Settlement: Bets on this Market are settled as soon as the specified touchdown is officially confirmed.

No Touchdown Scored: If the match ends or is abandoned before the "Xth" touchdown is scored, the Market for that specific touchdown is declared **Void**.

- *Example:* Bet is on the "Team to score 4th Touchdown" and the game ends with a total of 3 touchdowns, all Bets on the 4th touchdown Market are Void.

4.16. Next Touchdown Scorer (incl. Overtime):

- **No Further Touchdown:** If no further touchdown is scored for the remainder of the game (including Overtime), Bets on this Market are **Void**.

III. Esports special rules

Definitions & Interpretations

For the purposes of these rules:

- **Tournament Organizer** means the individual, entity, or consortium of entities that is responsible for the planning, coordination, management, and execution of an esports tournament or competition. The Tournament Organizer holds authority over the event's rules, schedule, gathering results, competitive format, participant eligibility, venue or platform logistics, enforcement of discipline, and the operation of tournament infrastructure, whether conducted online, offline, or in a hybrid format.

- **Map** or **Game** refers to one discrete playable segment of a match, as defined by the respective tournament rules for that title.
- **Round** refers to a sub-unit of a map or game as per tournament rules.
- **Match** refers to the full contest as defined by the tournament rules.
- **Key event** or **Significant event** means any in-game action or occurrence that meaningfully changes the competitive status, position, or probability of match outcome, including but not limited to kills, deaths, objective captures, structure destruction, round wins, power spikes, map or side changes, and any other action that materially affects the likely result of the match.
- **Game crash** means an unintended termination, shutdown, or failure of the game software or underlying system during an active match, resulting in the inability of one or more players to continue normal gameplay, loss of game state information, or interruption of match integrity. A Game Crash includes any event in which the game application freezes, forcibly closes, disconnects a player unexpectedly, or otherwise ceases to function in accordance with expected gameplay..
- **Restart** refers to a situation where a round is reset before it has been completed and played again from the beginning, usually due to technical issues such as player disconnection, hardware malfunction, or administrative error. The match score remains unchanged, and the restarted round is treated as a continuation of normal gameplay once resumed.
- **Replay** means a situation where a match, map, game, or round is played again in full, as decided by the Tournament Organizer, due to technical issues, rule violations, or other circumstances that prevent the original result from being upheld. A replay differs from a restart in that it involves repeating the entire segment of play (e.g., full map or match) rather than resuming or reloading an ongoing round. In case of a replay, rule 1.12. is applied.
- **Integrity Violation** refers to any act or omission that intentionally or negligently compromises the fairness, legitimacy, or integrity of an esports competition. Such violations include, but are not limited to:
 1. Cheating through the use of unauthorized software, hardware, or other methods that provide an unfair advantage;
 2. Intentional exploitation of in-game bugs or mechanics not permitted by official game rules (bug abuse);
 3. Match-fixing or manipulation of results, including deliberate loss of a match for financial or other external gain;
 4. Use of prohibited substances that affect player performance;
 5. Any other form of misconduct or fraudulent behavior intended to distort fair competition.

The following do not constitute an Integrity Violation - situations where a team deliberately concedes or withdraws from a match for legitimate logistical or scheduling reasons (e.g., to participate in another event or avoid time conflicts),

provided such actions are not associated with financial gain, manipulation, or deceitful intent.

If a team or player is disqualified from a tournament for other reasons (e.g., behavioral or rule violations) and conclusive evidence of integrity-related misconduct is established, the Sportsbook shall treat the case as an Integrity Violation, and Rule 1.7 shall apply.

Integrity-related violations are distinct from technical or operational issues (e.g., server outages, broadcast failures, or player accidents), which are governed separately under Rules 1.12. and 1.15.

Technical Loss (Tech Loss / Disqualification) means a situation where the Tournament Organizer awards a loss to a team for reasons unrelated to Integrity Violation , but such as no-show, rule violation, technical malfunctions, inappropriate behavior, or external circumstances beyond the player's or team's control.

For the purposes of these Rules, the terms “retires”, “forfeits”, “withdraws”, “walkover” or any similar designations shall be considered equivalent to a Technical Loss, where a player or team ceases participation in a match or tournament before its natural conclusion, and the organizer officially records the result as a loss for the affected team and a win for the opposing team.

Verified external or technical circumstances that may lead to a Technical Loss include, but are not limited to:

- a) Critical server or platform outages confirmed by the game publisher or Tournament Organizer;
- b) Loss or corruption of official match data or broadcast feed preventing verification of outcomes;
- c) Administrative cancellations or postponements officially declared by the Tournament Organizer;

d) Force majeure events such as power failures, natural disasters, or comparable disruptions.

If the organizer uses a different term or provides no explicit clarification, Rule 1.8. (Technical Loss) will apply.

1. General rules applicable to esports, conflict of rules

1.0. These Esports Betting Rules supplement the General Sportsbook Rules. Where not specifically addressed below, the provisions of the General Sportsbook Rules apply in full. In the event of any conflict, these Esports Rules shall prevail only where expressly stated.

Where the game-specific rules do not address a particular situation, the esports general rules shall apply; otherwise, the general sportsbook rules shall apply.

1.2. All eSports markets and settlement determinations offered by the Sportsbook are based exclusively on the official in-game scoring system, in-game logs or algorithms, publicly recognized game data sources, and tournament statistics as confirmed by the Tournament Organizer or game developer. All markets will be settled strictly according to the final scores and results recorded by these official sources. If a game or tournament is not listed above, or if the official data source is unavailable, the Sportsbook will rely on the match results, statistics, or confirmations provided by the Tournament Organizer, official broadcast, or governing body, which shall serve as the sole authoritative source.

1.3. All information displayed for eSports matches, including but not limited to match start dates and times, player/team/tournament names, participants, format, map, or tournament stage, is provided for informational purposes only.

Minor typographical errors or display inconsistencies that do not affect the actual identity of the event, participants, or tournament (e.g. spelling mistakes, formatting errors) shall not impact bet validity, and bets on the relevant markets shall stand.

Material errors or discrepancies that could mislead End Users regarding the actual tournament, participants, or schedule may result in bets on affected markets being voided at the sole discretion of the Sportsbook.

1.4. If a match is paused/postponed and not rescheduled to a later time within 24 hours of the actual scheduled start time, then bets on all markets of that match will be voided.

Terms of this clause shall not apply in the case of matches with placeholder times, where the official times are yet to be announced.

1.5. If a team changes its name or competes under a different organization but retains the same roster of officially registered competitors for the tournament, bets on all markets involving that team will stand, regardless of whether the change results from team leaving an organization, joining another organization, or from an official change of team name.

If a full team change occurs, bets on markets involving the original team will be void. A full team change is deemed to occur in any of the following situations:

a) More than 50% of the team's officially registered competitors are replaced;

- b) The team merges with another or ceases to exist as a separate entity, and its tournament slot is taken over by a new team;
- c) The team is removed or disqualified from the tournament and a different entity inherits its slot, even if some players remain.

1.6. If the Tournament Organizer of the event allows one or more stand-in or substitute players, and the match produces an official result, bets on all relevant markets will stand. "Stand-in" refers to a temporary substitute player approved by the Tournament Organizer to replace an unavailable roster member for one or more maps.

If more than 50 % of a team's starting roster (as registered with the Tournament Organizer) is replaced by stand-ins or substitutes, bets on all markets involving match will be void, and the sportsbook may treat the fixture as a new event.

1.7. If there is conclusive evidence of Integrity Violation that has directly affected the outcome of a match (including but not limited to the use of cheats, bug abuse, match-fixing, use of prohibited substances, or any other unsporting behavior), and such Integrity Violation is officially confirmed by the Tournament Organizer or a recognized esports integrity authority (e.g., ESIC) or any relevant state authority within 72 hours of the match completion, bets on all markets involving that match will be voided .

Exception: if, as a result of confirmed Integrity Violation, a team is disqualified or assigned losses for all matches within a tournament, bets will be voided only for

markets involving matches where clear evidence exists that the Integrity Violation occurred; for other matches, bets will remain settled as normal.

1.8. If a team is awarded a Technical Loss for reasons unrelated to Integrity Violation, all bets on markets whose outcomes were determined before the Technical Loss will stand. The Match Winner market, all undecided match-level markets (e.g., Map Handicap, Total Maps), and all other undecided map markets affected by the Technical Loss will be voided. A Technical Loss applied to one map does not affect the settlement of map markets for subsequent maps played and completed as scheduled.

If the Tournament Organizer uses terms such as “disqualification,” “technical loss,” or similar without specifying that the reason was an Integrity Violation and there is no conclusive evidence of an Integrity Violation - this rule 1.8. applies.

1.9. All markets consider overtime, unless expressly stated otherwise in the market name.

1.10. In the event of an official change to match format by the Tournament Organizer (for example, from Best-of-Five to Best-of-Three), bets on all map-level markets shall remain valid, while bets on all match-level markets (including but not limited to Match Winner, Map Handicaps, Total Kills for all maps, etc.) shall be voided.

1.11. If a match is played before the scheduled start date/ time, the Sportsbook reserves the right to void all bets placed on the match relevant markets after the

actual start of the match. All bets placed on the match relevant markets before the actual start of the match will stand.

1.12. An annulled period refers to a specific portion of a match, map, or round that has been officially rolled back or declared invalid by the Tournament Organizer or the official data source (for example, when the score changes from 10–10 to 5–5, rounds 11–20 are considered annulled).

All live bets placed on markets involving the affected match, map or round (as applicable) within the annulled period shall be voided.

Live bets placed on markets involving the affected match, map or round (as applicable) before the start of the respective annulled period shall stand.

If a market (pre-match or live) has been settled before the official announcement or confirmation of the replay or rollback, and the corresponding part of the game (match) is subsequently declared annulled, such settlements shall be canceled and bets on affected markets shall be voided.

The start and end of an annulled period shall be determined based on official tournament logs, protocols, or data provider records (e.g., round ID, timestamps).

In the event of discrepancies between sources, the Sportsbook shall apply the narrowest time interval clearly confirmed by the official data source.

Example:

Score rollback from 10–10 → 5–5:

Bet placed at 6–6 → voided

Bet placed at 2–2 → stands

1.13. If a map starts with fewer players than the number required under the official tournament regulations, all bets on that map or match will be voided. The required number of players shall be determined in accordance with the respective tournament's rules or regulations.

1.14. If a match is determined to be pre-recorded, the sportsbook reserves the right to void all bets placed on markets involving the relevant match. A match may be deemed pre-recorded based on official confirmation from a recognized esports integrity body (e.g. ESIC), credible broadcast or data discrepancies, or verified technical evidence.

1.15. If an official match broadcast, in-game data feed, or tournament stream is interrupted, corrupted, or unavailable, the Sportsbook will attempt to verify the final result using tournament records provided by the Tournament Organizer. If the result cannot be verified within 24 hours of the scheduled match end, bets on all affected markets will be void. This rule covers interruptions caused by server crashes, data-feed failures, or other verified technical malfunctions.

1.16. All eSports markets offered by the Sportsbook are based on the official rules, formats, and terminology established by the respective game developers and Tournament Organizers. The Sportsbook does not restate, reinterpret, or redefine these in-game rules or mechanics. Any references to specific game elements are

used solely within the context of the official game structure and shall be understood according to the definitions and rules provided by the game itself.

All in-game events and outcomes, including but not limited to First Blood, Double Kill, and similar occurrences, are determined exclusively by the in-game logs and systems of the respective title. The Sportsbook has no control over, and bears no responsibility for, how such events are defined, triggered, or recorded within the game.

1.17. If a specific in-game event or condition forming the basis of a betting market does not occur during the applicable map, match, or series, all bets on that market will be void.

1.18. Certain esports market titles contain gameplay elements, terminology, and objectives that may include references to violence, weapons, or acts of conflict. Such content forms part of the official game rules and structure established by the game developers and Tournament Organizers and is used solely for the purpose of identifying in-game roles, objectives, and results within the esports environment.

The Sportsbook does not endorse, promote, or condone any form of real-world violence, terrorism, or unlawful activity. References to such terms within betting markets are purely descriptive of the in-game context and do not represent the views or values of the Sportsbook.

2. Rules applicable to esports outrights

2.1. If a team or participant listed in the outright market does not take part in the tournament, all bets placed on markets involving that team/participant will be void.

If a team or player competes in at least one official match, all bets on the relevant markets will stand.

2.2. If the start of the tournament is postponed, the Sportsbook reserves the right, at its sole discretion, to either void bets on all affected markets or allow such bets to stand, depending on the circumstances. If the tournament is rescheduled and completed within 7 days of the original start date, bets on the affected markets will stand; otherwise, bets on the respective markets will be voided.

2.3. If the tournament is cancelled, all bets on the markets involving that tournament will be voided.

2.4. If a team uses one or more officially approved stand-in or substitute players during a tournament, bets on all outright markets involving that team will stand, provided the team remains an officially recognized participant in the event.

If more than 50% of a team's registered starting roster (as confirmed by the Tournament Organizer before the event) is replaced by stand-ins or substitutes at any point during the tournament, bets on all outright markets involving that team will be void.

2.5. In the event there is more than one winner, the dead-heat rule will apply.
Payouts will be divided proportionally based on the number of declared winners.

2.6. If the tournament format is changed by the Tournament Organizer after markets are offered (e.g., from double elimination to single elimination), the Sportsbook reserves the right to void bets on all affected outright markets.

2.7. If a player is replaced or removed from competition before playing any official match, bets on all markets involving that player that have not yet been settled shall be voided. Bets on markets involving the affected player that have already been settled prior to the respective replacement or removal shall remain valid.

If the player is replaced or removed from competition after participating in at least one official match, all bets or markets on such player, whether previously settled or pending, shall stand.

1.1. Scope of Predictions: The "Predictions" section covers betting markets on various events, including but not limited to Politics, Arts, Entertainment, Science, and specialized Sporting milestones.

1.2. Specific Market Rules (Tooltips): Due to the unique nature of each "Predictions" market, the specific criteria for settlement, winning conditions, and definitive timeframes are provided directly within the information tooltips (marked with the "i" symbol) located next to each market.

By placing a bet on a "Predictions" market, the End User confirms they have read and accepted the specific settlement rules provided in the respective tooltip.

- In the event of any conflict between the General Sportsbook Rules and the information contained in the market tooltip, the tooltip information shall prevail.

1.3. Sources and Settlement: The official sources (websites, government records, or official announcements) used to verify the outcome of a "Predictions" market will be specified in the market's information tooltip.

- If a specified source becomes unavailable or provides ambiguous data, the Sportsbook reserves the right to use other publicly recognized and reputable sources to determine the result.

1.4. Postponement and Cancellations: Unless otherwise specified in the tooltip, if an event within the "Predictions" category is cancelled, is indefinitely postponed or will never happen due to objective or force majeure circumstances for a period longer than 1 (one) year from the expected deadline, all unsettled bets will be declared Void (Refunded). If a specific deadline for the outcome is mentioned in the tooltip, the bet will be settled based on the situation at that exact deadline.
